B DISCLOSURE REQUIREMENTS AS SET OUT IN APPENDIX 9B OF BURSA SECURITIES MAIN MARKET LISTING REQUIREMENTS

B1 Review of performance

The Group achieved a revenue of RM12.98 million for the period under review against RM0.99 million in the corresponding period of preceding year, representing an increase of more than 1200%. The increase in revenue against the same quarter last year was attributed to the higher sales recorded from machine vision system (MVS), automated board inspection (ABI) and electronics communication system (ECS). The increase in sales recorded are due to higher than expected demand of our new products as a result of effective execution of our business strategies and strong recovery of semiconductors and electronics sectors. On the back of this revenue, the Group achieved a profit before tax of RM4.50 million against loss before tax of RM2.12 million in the corresponding quarter, attributed mainly to higher sales recorded and our prudent internal cost control in the current quarter. Correspondingly, the Group recorded a profit after tax of RM4.40 million against loss after tax of RM2.12 million in the corresponding quarter.

B2 Variation of results against immediate preceding quarter

The Group recorded revenue and profit before tax of RM12.98 million and RM4.50 million respectively for the current quarter under review against revenue and profit before tax of RM6.05 million and RM1.28 million respectively for the immediate preceding quarter. These represent an increase of more than 100% in revenue and more than 250% in profit against the revenue and profit of the immediate preceding quarter. The increase in revenue and profit were attributed to higher sales recorded for MVS, ABI and ECS as a result of effective execution of our business strategies coupled with strong recovery in the semiconductors and electronics sectors.

B3 Prospects for the remaining quarters of current financial year ending 31 December 2010

Continuous strong demand for machine vision system, automated board inspection and electronics communication system from the leading test and inspection equipment manufacturers, electronics and the development of new markets will ensure that our machine visions' and electronics communication systems' products remain the mainstay of the Group's earnings. In addition, the success of the Group's other product offerings such as automated board inspection (ABI) in gaining commercial acceptance will add depth and breadth to the Group's business. Barring any unforeseen circumstances, the Board expects the performance of the other quarters of the current financial year to remain strong and satisfactory.

B11 Material litigation

(a) ViTrox Technologies Sdn Bhd ("VTSB") vs Tan Hwang Kiat (NRIC No : 730726-02-5333) ("First Defendant") and ACA Vision Technology Sdn Bhd (Company No. : 618197-K) ("Second Defendant")

The First Defendant was an engineer previously employed by VTSB. He was suspected to have copies of VTSB's source codes and produced automated vision inspection system to be sold through the Second Defendant.

VTSB was granted an Anton Pillar order on 22 October 2003 and conducted a raid at the Second Defendant's office and the First Defendant's residence on 29 October 2003. It is VTSB's case that the said ViTrox's source codes were discovered in the computers at the said office but nothing was found at the residence.

Based on the results of the raid, VTSB has applied for injunction on 24 November 2003. The application for the injunction together with 2 separate applications by the Defendants to set aside the Anton Pillar order and application by the First Defendant to challenge an affidavit of a witness for VTSB is pending fixing of date from the court for hearing. One of the grounds put forward by the Defendants in their application is that the source codes discovered in the computers do not belong to VTSB.

Based on the advice of the solicitors, the Directors of VTSB are confident that the Court is likely to allow VTSB's claim. VTSB will be entitled to all earnings the First Defendant and Second Defendant made as a result of the unauthorised use of VTSB's source code and costs including the investigation fees.

Notwithstanding the above, in the event that VTSB's claim is not successful and assuming that both the Defendants continue with the business, the Directors of VTSB believes that VTSB would only be minimally affected, if any, in view of the fact that the affected source codes are of the older version. In line with the dynamic environment of the machine vision industry, VTSB has since upgraded the source codes which are of higher accuracy and speed. As such, the current product lines of VTSB are independent of the affected source codes and thus, the sales of VTSB's products should not be affected by products arising from the use of affected sources codes, if any.

The decision for Enclosure 57 (the Defendant's application to expunge certain affidavits of the Plaintiff) came up on 9 November 2006 where the Court dismissed the Defendant's application. Therefore, the Plaintiff is entitled to rely on all the affidavits. However, the Court informed the Defendant's solicitors that they are at liberty to file an application to cross examine the deponent/s of the relevant affidavits as provided for in the Rules of the High Court.

Having delivered the said decision on 9 November 2006, the Court then fixed Enclosures 15 (the First Defendant's application to set aside the Anton Piller Order), 17 (the Plaintiff's application for further injunction) and 19 (the Second Defendant's application for return of the items seized) for hearing on 10 November 2006.

On 10 November 2006, all counsels applied for an adjournment on the basis that more time is needed to fully prepare for hearing of the said 3 enclosures. The Court allowed the application for an adjournment and fixed the said 3 enclosures for hearing on 8 December 2006. The Court had instructed the Second Defendant to file its Submission and fixed 12 August 2009 for mention. Thereafter, the Court had on 12 August 2009 further fixed 10 November 2009 for a decision in relation to the Second Defendant's interlocutory application for leave to cross examine one deponent. On 4 May 2010, no hearing was carried out and the date for next hearing will be determined later. However, both parties have agreed to withdraw their respective claims in the above matter with no cost incurred by either parties. Currently, this matter is pending written documentation from related parties.

(b) Tan Hwang Kiat vs ViTrox Technologies Sdn Bhd

Tan Hwang Kiat ("the Plaintiff") commenced action against ViTrox Technologies Sdn Bhd ("the Subsidiary"), a wholly-owned subsidiary of ViTrox Corporation Berhad.

In the statement of claim endorsed on the writ of summons that was served on 6 March 2006 on the Subsidiary, the Plaintiff alleges that the Subsidiary had in the Subsidiary's directory under the file - ViTrox-Corp Directory-Inform Summary-Risk Factors-published in the Bursa website, www.bursamalaysia.com. under the heading of Information Summary and in the sub-heading entitled Material Litigation published a statement that is defamatory of the Plaintiff.

The Plaintiff did not specify any specific quantum of damages in the aforementioned writ of summons. At this stage, the quantum of damages of the suit cannot be determined as damages (if any) that is to be awarded in a defamation action is to be assessed by the Court having the benefit of evidence adduced during trial. In accordance, the Company is not able to assess the financial damages (if any) and the suit is not expected to have any other financial impact on the Group. The suit is also not expected to have any operational impact on the Group.

As the Plaintiff's claim is founded on the allegation of the tort of defamation, it is not liquidated claim that can be quantified. The Plaintiff had therefore claimed the interest rate on the judgment sum which is to be assessed in the event that the Plaintiff is successful in his claim. In such an event, the Plaintiff is entitled to claim interest of 8% per annum on the judgment sum from the judgment date until the full settlement of the said sum.

The Subsidiary, having consulted its solicitors has been advised that it has good defence to the action commenced by the Plaintiff and has instructed its solicitors to do the necessary to defend the said action.

The hearing date on 29 August 2006 for the hearing of the Plaintiff's application for interim injunction in the action commenced by him against VTSB was adjourned to 7 December 2006.
