

# 2016

## Happy New Year

### New Year. New Look!

ViTrox would like to take this opportunity to thank everyone of you for your significant support and feedback during year 2015. 2016 is a challenging year and customers shall always remain as our firs priorities.

In conjunction with the new year, we are glad to launch our brand new look of newsletter for your reading pleasure. Lastly, thank you once again and we wish you luck, prosperity and health for this New Year, and look forward to continue serving you.

### Key Achievements in 2015

Last year had been a challenging year but we turned challenges into successes. Firstly, we launched an enhanced revision of AXI system for PCB SMT assembly line namely V810 S2EXi. Besides, we also launched TH2000i for Back-End Semiconductor Industry. This system is designed with advanced key technologies to provide high speed, high accuracy, one stop vision inspection solutions specially catered for advanced packages handled in tray.

On the other hand, we are pleased to share with you our excellent moments where we have won 6 more new awards for year 2015 especially "Forbes Asia's 200 Best Under a Billion List 2015". Hereby, we would like to show our gratitude to our valued customers for their continuous support, as well as our employees for their seamless contributions.
