

World Leading Machine Vision Solutions Provider

Since 2019, we've invented V9i, an inspection solution that runs conformal coating inspection on electronic devices. Cobot, with the indication of the collaboration between human and robot, is one of the outstanding series under **Advanced Robotic Vision (ARV)** solutions.

There's so much that could be offered by V9i to the manufacturers. Users are allowed to mount the robot flexibly based on the customers' needs. Apart from that, it supports 360-degree unlimited inspection coverage without restrictions to the component.

Furthermore, V9i deploys the smart learning algorithm without CAD input. It is user-friendly and easy to operate by most of the users. Most significantly, this machine reduces harmful coating environment on human skin while preserving its strength in producing quality-assured inspection result.

By acquiring V9i, the safer inspection quality-ensured result will be fulfilled concurrently in no time. Click 'Read More' below if you'd like to understand further about this product.

Your feedback is important to help us improve our service

Electronics Manufacturing Expo (EMAX) Asia 2019

Thank you, once again, for dropping by our booth in EMAX 2019, an exhibition for the Electronics Manufacturing and Assembly Technology and Equipment industry, held from 17th to 19th July 2019 (10am-6pm) at SPICE Arena Penang, Malaysia. Apart from being the official silver sponsor, ViTrox is beyond honoured to be allowed to showcase it's latest AIoT solutions, present a speech for the technical conference, and host a manufacturing plant tour for VIPs and exhibitors as well.

During the exhibition, you have seen our displayed products- **V-ONE**, a highly customizable open platform which offers data-driven decisions in the manufacturing process, and **ViCAT IO**, a wide range and cost-effective standalone IO solutions for various industries- both offers IIoT solutions which aligns with the trend of Industry 4.0.

We couldn't thank you for showing your interest towards these latest industrial 4.0 solutions. Your encouragement and feedback are invaluable in helping us to enhance our products and services in the long term. See you again next year!
