

Visit ViTrox at NEPCON Vietnam

September 26 2016 – ViTrox Technologies today announced ViTrox is pleased to announce that its strategic channel partner, Kyoritsu Electric (Vietnam) Co, Ltd., will showcase its award-winning V510i Optimus 3D AOI system in Booth #C18 at NEPCON Vietnam. The event is scheduled to take place Oct. 6-8, 2016 at SECC in Ho Chi Minh City, Vietnam. Vietnam is one of the regions in South East Asia that is quickly expanding its semiconductor and SMT industries.

ViTrox's V510i Optimus 3D AOI is one of the company's best-selling products. Known as one of the market leaders in 3D AOI inspection, V510i Optimus 3D AOI's system uses 2D + 3D inspection concurrently to achieve high productivity and high detectability. It boasts capabilities that are unmatched by other existing solutions in the market.

The system is able to detect various types of challenging defects, such as Lifted Lead, Coplanarity, Black color PCB/Multicolor PCB, Presence/Absence, small components like 01005/0201 and many others. V510i Optimus 3D AOI is coupled with structured lighting for 2D illumination with multiple color LEDs. The revolutionary multi-angle multi-color illumination capability allows multiple images to be acquired for each view.

V510i Optimus 3D AOI has been presented at different trade shows and has received positive feedback from visitors and customers. Vietnam is a new market for ViTrox, but the company is confident in its expanding market share in Vietnam. ViTrox and Kyoritsu will be ready at the booth and welcome visitors to visit and experience live demonstrations!
