ViTrox's Tech Day

Feb 16, 2017

ViTrox Technologies, the solutions provider of innovative, advanced and cost-effective automated vision inspection systems and equipment for the semiconductor and electronics packaging industries, today announced that it's going to host a User Group Meeting (UGM) and Open Day with Strategic Channel Partner (SCP), Evotest at Evotest office on 22 February 2017.

The purpose of conducting UGM is to gather ViTrox's valued customers in one location for technical information and future product roadmap sharing. Speakers of UGM will share about ViTrox's latest AOI and AXI's features and capabilities to customers, not to forget the latest software-based product, V-ONE. Customers are able to experience the one-stop inspection solution by connecting it with centralized inspection machines! Additionally, products live demonstrations on that day enables the customers to have clearer understanding about ViTrox's latest AOI, AXI and V-ONE. Customers can experience the reliability, ease of programing and also machine performance right on the spot! Meanwhile, customers can take the opportunity to discuss with our technical experts about the user experience. This two-way communication also enables to let ViTrox to have a deeper understanding customer requirements.

On the same day, ViTrox will host another event which is Open Day whereby it is dedicated for those who are not ViTrox's existing customers but interested in understanding more about ViTrox. Speaker of Open Day will share the brief introduction of ViTrox's background and product offerings to participants.

Besides, ViTrox is going to conduct Token of Appreciation session on that day. Some mysterious gifts will be given away to customers during that day! Don't hesitate, please grab this great chance to attend ViTrox's UGM and Open Day by RSVP before 20 February 2017! ViTrox is looking forward to welcome you for visitation!
