

# ViTrox's US First Ever Technical Support Member is On Board Now!

Wednesday, June 28, 2017

*ViTrox Technologies proudly announce that Michael L. Santos, JR is hired as Vitrox Service and Support Engineer in North America region.*

Michael has over 12 years experience in Eletronics Manufacturing. He served as a Quality Auditor/Quality Control Inspector II and Advanced X-ray Inspection (AXI) Test Engineer in Flex. In the past 12 years in electronic manufacturing, Michael has over 4 years experience in Program Development and Debugging of Electronic assemblies on Agilent 5DX and X6000 Platforms, including ViTrox V810 Standard and XXLPlatforms.

By joining ViTrox, Michael helps to further strengthen ViTrox's support organization in North America. Current North America support fleet has more than 35 highly qualified Field Support Engineers, which consist of ViTrox direct employee, Evotest, SMT0, AIS and Keysight.
