

ViTrox's User Group Meeting (UGM) is Now Extended to Mexico!

ViTrox Technologies, the solutions provider of innovative, advanced and cost-effective automated vision inspection systems and equipment for the semiconductor and electronics packaging industries, today announced that it's going to conduct User Group Meeting (UGM) in Mexico on 7th November, 2017 at Real Inn Cd Juarez and 9th November, 2017 at Holiday Inn Guadalajara, ITESO. Both events will be held from 3pm to 7pm.

In conjunction with Thanksgiving month, ViTrox is honoured to welcome our valued customers to participate in the first ever UGM in Mexico which held at Juarez and Guadalajara. ViTrox is excited to share the latest new product release and technology, for instance, V510i 3D AOI with 12MP Camera, V910i Advanced Robotic Vision Inspection System, V920i Advanced Robotic Vision Inspection System, V55i and other solutions to customers who join Mexico's UGM.

This marks as the 5th and 6th UGM which held by ViTrox in 2017. ViTrox believes that UGM is able to help customers to have a deeper understanding of ViTrox products and capabilities. Moreover, a networking session will be conducted for user experience exchange between ViTrox and SMT field experts.

Customers who attended UGM Asia before commented that ViTrox's UGM is "an informative event where it allows users to explore more about ViTrox's products and core technology", "UGM is a hub which connecting people's knowledge and expertise together". Besides, one of the participants in Brazil commented that "the sharing session was inspiring, and I am impressed with the product's ability in inspection by using camera and shadow free method."
