

New Member On Board – Electronic Assembly Products (EAP)

ViTrox Technologies, a solutions provider of innovative, advanced and cost-effective automated vision inspection systems and equipment for the semiconductor and electronics packaging industries, appoints Electronic Assembly Products (EAP) as Sales Channel Partner in United States, effective from 1st March, 2018.

EAP is representing ViTrox in selling Advanced 3D Solder Paste Inspection System (SPI), Advanced Optical Inspection System (AOI), Advanced 3D X-Ray Inspection System (AXI) and V-ONE in Midwest regions of United States. EAP has wide coverage in US market including Ohio, Michigan, Indiana, Kentucky, Pennsylvania, West Virginia and Florida. Besides, EAP possesses a group of technical experts who are ready to support ViTrox's existing and new potential customers in US.

For over 15 years, EAP has been a manufacturer's representative agency that approaches every single customer as a partner in solving process challenges. EAP used its vast experience and knowledge of all aspects of the assembly process to work with the customers to both identify and resolve their assembly challenges. By finding the right solution to every challenge, EAP maintains the confidence of customers and enabling them to act as a trusted extension of their internal resources.

According to John Johnson from EAP, "ViTrox is recognised as one of the world leading suppliers of SPI, AOI and 3D AXI solutions, EAP is very excited to represent ViTrox and provide both pre and post sales support for the customers".

According to ViTrox's Senior Vice President & General Manager, Mr. Wee Kah Khim, "It's our pleasure to work with EAP. We believe that the collaboration with EAP is a right and wise decision to strengthen our brand and expand our business in United States".

Lastly, ViTrox is looking forward to work with EAP to grow and boost the sales in United States and to serve the best interest of our customers for now and in future!
